ABOUT ME

I'm a final-year student pursuing a degree in Computer Science and Design. As a MERN stack developer, I'm passionate about creating web applications that not only look good but also work seamlessly. When I'm not studying or coding, you will likely find me cooking, working out, or exploring local restaurants.

EDUCATION

Bachelor of Engineering , Dayananda Sagar College of Engineering. Computer Science and Design.	Expected 2025 GPA: 8.88
Pre-University , Alva's Pre-University College. PCMC.	2019 - 2021 Percentage: 98%

SKILLS

Languages : JavaScript, HTML, CSS, C/C++, Python.
Frameworks : ReactJS, NodeJS, NextJS.
Tools : VS code, Github, MongoDB, Framer, Bootstrap, Tailwind CSS, Vercel.
Design : Canva.

EXPERIENCE

Product Administration Intern, Sapientury. ([View Offer Letter](#)) Jul 2024 - Aug 2024 (Remote)

- Provided technical support during course development, implementing media assets in new courses. Managed the content life cycle, including uploading, updating, and expiring content, ensuring compliance with data integrity and LMS enrollment processes.
- Conducted technology analysis of new platforms and applications to meet product requirements. Maintained training library content and workflows, evaluated course usage, and monitored completion rates. Supported faculty and staff in applying instructional technologies.

PROJECTS

PriceWise([Live URL](#))

- Developed an e-commerce price tracking application using Next.js and a web scraping tool, resulting in a increase in user engagement.
- Implemented a notification system for price drops and competitor stock alerts, improving user retention
- Managed cron jobs for automated price tracking, leading to a increase in user engagement.

Supa Smoothies ([Live URL](#))

- Developed a smoothie inventory management web application using React, Supabase, HTML, and CSS, streamlining inventory processes by 40%
- Implemented user authentication and database CRUD operations for inventory tracking, reducing data entry errors by 30%.

CERTIFICATIONS

- **Python for Data Science, AI and Development.** ([View Certificate](#))
- **Hands-on Introduction to Linux commands and Shell scripting.** ([View Certificate](#))
- **Introduction to DevOps.** ([View Certificate](#))

INTERESTS

Cooking, Fitness, Gaming, Traveling.
